To Whom It May Concern:

Coors Healthcare Solutions has been a vendor of Valley Health for over two years. They have served in multiple capacities with assisting us in navigating the changes in the rural healthcare market. They have facilitated and advised on various areas such as community needs assessments and physician engagement.

They currently are working with us in establishing a Physician Advisory Council. The council has met over six times. Through those six sessions, we've seen greater involvement from community and employed physicians of multiple specialties, which is a meaningful difference before we started. Coors Healthcare Solutions has been an integral part of our physician alignment strategy.

Coors Healthcare Solutions has been a valuable partner and we are happy to recommend them to anyone searching for innovative and process driven solutions. Please don't hesitate to contact me if you have any questions or would like to discuss in further detail. My direct line is 540.536.6307.

Sincerely,

Jacob Young
